

**The Spring Thaw Trip 2007**  
**Desolation Sound**  
**June 2nd to June 9th 2007**  
Cruse Director: Bruce Powell

So here is your first announcement from you new Cruse Director / Bozeman or Bosun or Boatswain, (call me anything but late for supper) more about that in later issues.

As we are heading North this year a little later time has been suggested. There are far less pressures from the south on anchorages and docking. Weather will be less of a gamble (but you never know). Hopefully the trailer-able boats will not have to dig out from snow banks. There are also many docks not open until June first so the later time makes sense. This is just a first announcement so you can arrange holidays or time off and start your daydreams early. There will be later discussion and plans posted in the Jibs and Gybes as well as the FACS web site. If you have any comments or wish to help organize feel free to contact me.
